

Investor Presentation

First Quarter Fiscal Year 2021

Forward-Looking Information

This document contains forward-looking statements. These statements are only predictions. The outcome of the events described in these forward-looking statements is subject to known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to differ materially from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. These risks and other factors include but are not limited to the factors set forth in our Annual Report on Form 10-K for the year ended September 30, 2020 and subsequent filings with the Securities and Exchange Commission. You can identify forward-looking statements by terminology such as “may,” “will,” “should,” “could,” “would,” “expects,” “intends,” “plans,” “anticipates,” “believes,” “estimates,” “predicts,” “potential,” “continues” or the negative of these terms or other comparable terminology. Our business is subject to a number of risks and uncertainties, and our past performance is no guarantee of our performance in future periods. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. There may be other factors of which we are currently unaware or deem immaterial that may cause our actual results to differ materially from the forward-looking statements.

All forward-looking statements attributable to us or persons acting on our behalf apply only as of the date of this document and are expressly qualified in their entirety by the cautionary statements included in this document. Except as may be required by law, we undertake no obligation to publicly update or revise any forward-looking statement to reflect events or circumstances occurring after the date of this document or to reflect the occurrence of unanticipated events.

To supplement our consolidated financial statements presented in accordance with generally accepted accounting principles (GAAP), we use certain non-GAAP measures of certain components of financial performance. These non-GAAP measures include earnings before interest, taxes, depreciation and amortization (EBITDA), Adjusted EBITDA and revenue excluding DoD contracts. These non-GAAP measures are provided to enhance investors’ overall understanding of our current financial performance and prospects for the future. We use these non-GAAP measures: (a) as measurements of operating performance because they assist us in comparing our operating performance on a consistent basis as they do not reflect the impact of items not directly resulting from our core operations; (b) for planning purposes, including the preparation of our internal annual operating budget; (c) to allocate resources to enhance the financial performance of our business; (d) to evaluate the effectiveness of our operational strategies; and (e) to evaluate our capacity to fund capital expenditures and expand our business. We believe these non-GAAP measures provide useful information to both management and investors by excluding certain expenses that may not be indicative of our core operating measures. These measures should be considered in addition to financial information prepared in accordance with GAAP, but should not be considered a substitute for, or superior to, GAAP results. A reconciliation of all non-GAAP measures included in this presentation to the most directly comparable GAAP measures is included in this presentation.

The following discussion should be read in conjunction with our consolidated financial statements and related notes and the information contained in our Annual Report on Form 10-K for the period September 30, 2020.

Macro-Trends Expanding Our Opportunity

e-Commerce Growth

- Increased demand for digital, no-contact solutions driving more opportunities with sellers and buyers
 - Strong online growth in retail driving increased volume of consumer returns
 - Trending appetite for self-directed solutions
- Increasing buyer need for discounted, refurbished & secondary market assets

Technology Innovation

- Product obsolescence and shorter product lifecycles
- Greater focus on compliance & transparency
- Higher adoption of digital marketplaces and no-contact sales channels among B2B buyers
- Increasing need for faster disposition cycle

Sustainability

- Environmental Sustainability key goal for commercial & government sellers
- Focus on Zero Waste
- Environmental compliance requires sophisticated tools and reporting
- Extending the useful life of assets of increasing importance

Our Business Model

Compelling Model

- Online, no-contact and self-service solutions
 - Diversified products, services, and customer mix globally
 - High-volume recurring revenue
 - Value-added managed services
 - Additional services beyond selling assets to create higher-margin revenue streams
 - Network effect drives recovery maximization for sellers and increasing flow of asset supply for buyers
 - High operating leverage on future growth
-

Multiple, Synergistic Revenue Streams

- Consignment Model
- Purchase Model
- Service Revenue
- Buyer Premium Fees

Liquidity Services Marketplace Success

Consolidated GMV growth of 28% in Q1-FY21, strong momentum thus far in Q2

Segment	Q1-FY21 Marketplace Success*
GovDeals	+36% GMV +10% Buyer registrants +12% Auction participants
Retail Supply Chain	+30% GMV +6% Buyer registrants +6% Auction participants
Capital Assets	+5% GMV +1% Buyer registrants +50% Auction participants

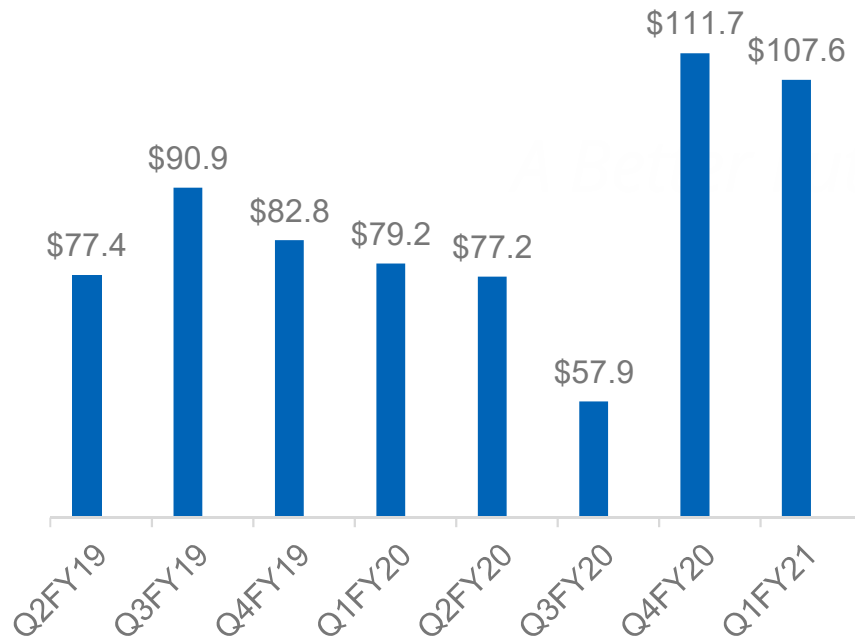

**Q1-FY21 growth over prior year comparable quarter.*

GovDeals Segment: Capitalizing on Market Opportunity

Over 14,000 government agencies have used our self-service model for low-cost, highly effective surplus sales

GovDeals Segment GMV Trendline

* In millions

- Governments seek streamlined costs, reduced space, digital and green solutions, and improved compliance
 - Reduced revenue to governments is driving increase in government sellers and volumes
 - Higher recovery value realized for certain vertical in Q1FY21
- We are leading the trend for government sellers to access a mobile-first solution
 - Well-positioned to serve increasing demand for virtual solutions
- We believe that marketing technology and increase in online procurement will drive more buyer demand in FY21
- GovDeals self-directed model is attractive to:
 - State and municipal governments
 - Higher education institutions
 - Non-profits

RSCG Segment is Driving Long-Term Growth

RSCG delivers 17 consecutive quarters of GMV growth; 30% GMV growth in Q1-FY21

RSCG Segment GMV Trendline

* In millions

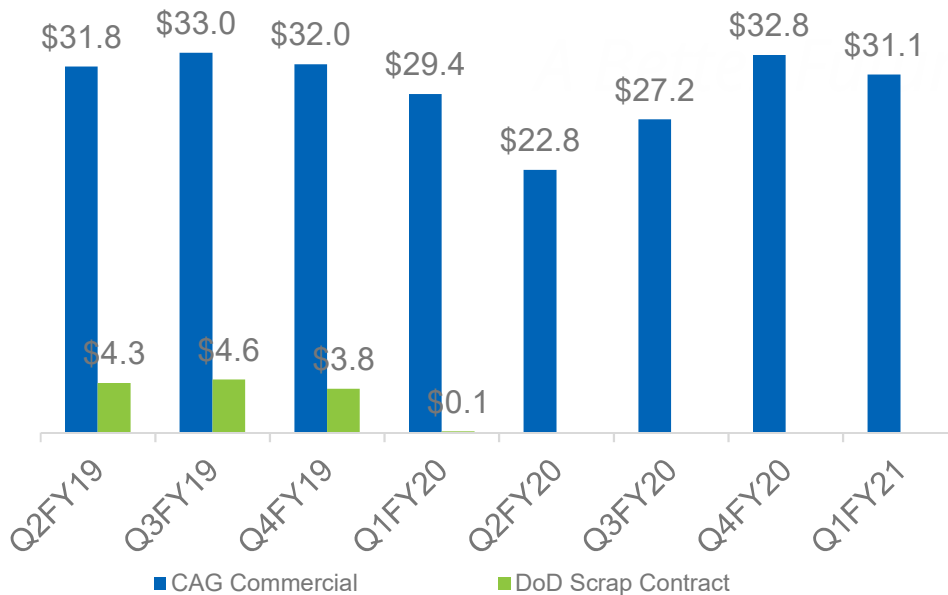

- Q1FY21 benefitted from:
 - Retailers increasingly seek B2B marketplace platforms to conduct resale of surplus inventory
 - Hyper-growth of e-commerce
- We expanded service offerings to address full-spectrum of seller needs and create higher-margin revenue streams:
 - Managed Services for end-to-end solutions
 - Self-directed solutions
- These services have positioned us well to respond to recent macro trends:
 - Strong e-commerce growth drives increased volume of consumer returns
 - Increasing buyer need for discounted, refurbished and secondary market assets drives growth
- Q2 is the seasonally high RSCG quarter

CAG Segment Diversified Seller Base

Global markets are still restricted but pipeline is growing through seller and buyer demand

CAG Segment GMV Trendline

* In millions

** CAG Commercial excludes DoD Surplus and Scrap contracts

- Last twelve months were impacted by global pandemic:
 - International economies are heavily restricting travel and limit facility visits, impeding asset inventorying and valuation
- Improving volumes since April/May bottom as the result of:
 - Greater need to recover investment on idle assets
 - Increasing buyer demand for assets at less than new pricing
- All CAG assets are cross-listed onto our AllSurplus.com platform. This platform enables our sales organization to offer self-directed services as a solution to sellers:
 - New platform enables low-touch, asset-light model
 - Buy Now functionality enables faster transactions
- CAG GMV can be variable based on timing and project size

Machinio Overview
