DLA Disposition Services — J422

November 21, 2013

Liquidity Services, Incorporated  
Mr. William Angrick  
1920 L Street, NW, 6<sup>th</sup> Floor  
Washington, DC 20036

Dear Mr. Angrick:

This letter is provided to inform you of a change in the contract terms set forth in contract 475 52395 (previous awarded as 99-4001-0004) between Liquidity Services, Inc. and DLA Disposition Services, signed June 9, 2005. Specifically Part II, Section D of the Scrap Venture Invitation for Bid provides;

**“The minimum Performance Period for the contract is eighty-four (84) months. DRMS may exercise options to extend the Performance Period for up to an additional thirty-six (36) months.”**

In addition, Article Two, section 4, found in part VI provides;

**“The basic Performance Period under this contract is eighty-four (84) calendar months beginning with the date of submission to Purchaser of the initial Pickup Notice. The Government has the unilateral right to extend that eighty-four (84) calendar month Performance period for three twelve (12) month option periods by notice thereof to Purchaser or Contractor.”**

DLA Disposition Services has determined the additional three twelve (12) month options that are unilaterally available to the Government for extending the performance period of contract 99-4001-0004 to be in the best interest of the Government. Therefore, DLA Disposition Services exercises the third 12-month option under this provision which will extend the SV contract through June 9, 2015.

Sincerely,

/s/ JODI CULLINGFORD

**Liquidity Services, Inc. Receives 12-Month Contract Extension  
for U.S. Department of Defense Scrap Property Sales**

**Washington, DC, December 4, 2013**— Liquidity Services, Inc. (NASDAQ: LQDT) today announced that the Defense Logistics Agency (DLA) has exercised the third of three twelve-month extension options under its Scrap Property sales contract (Scrap Contract). Through this unilateral contract amendment, the Scrap Contract's performance period will be extended through June 9, 2015. During this period, the U.S. Department of Defense (DoD) will continue to use Liquidity Services as the exclusive sales channel for the disposition of scrap property that is approved for public sale.

Under the Scrap Contract, Liquidity Services manages the receipt, storage, marketing and disposition of virtually all scrap property generated by DoD installations throughout the continental United States, Alaska, Hawaii, Puerto Rico and Guam including: base materials and scrap metals like ferrous and non-ferrous metals, nickel alloy, electronic scrap, rubber, paper and in rare occasions, compost, cooking grease, and recycled asphalt. Assets are offered for sale through Liquidity Services' online auction marketplace, <http://www.GovLiquidation.com>, to a global buyer base, generating over \$40 million per year in distributions back to the U.S. Treasury.

“As a recognized cost saver and solution provider to the DoD, we are proud to support our government partner's sustainability goals. To date, over 2.3 billion pounds of DoD scrap materials have been sold on our [www.govliquidation.com](http://www.govliquidation.com) marketplace, contributing to one of the largest recycle, reuse and redeployment initiatives in U.S. history,” said Bill Angrick, Chairman and CEO of Liquidity Services. “Through the scrap contract extension we will continue to process and prepare for sale the 20-30 million pounds of scrap materials received each month while remaining committed to safety, environmental and security compliance.”

The extension of the term of the Scrap Contract is described in an 8-K to be filed today with the SEC. All other principal terms of the original contract remain in effect.
