Forward-Looking Information

This document contains forward-looking statements. These statements are only predictions. The outcome of the events described in these forward-looking statements is subject to known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to differ materially from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. These risks and other factors include but are not limited to the factors set forth in our Annual Report on Form 10-K for the fiscal year ended September 30, 2022, and subsequent filings with the Securities and Exchange Commission (SEC). You can identify forward-looking statements by terminology such as “may,” “will,” “should,” “could,” “would,” “expects,” “intends,” “plans,” “anticipates,” “believes,” “estimates,” “predicts,” “potential,” “continues” or the negative of these terms or other comparable terminology. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. There may be other factors of which we are currently unaware or deem immaterial that may cause our actual results to differ materially from the forward-looking statements.

All forward-looking statements attributable to us or persons acting on our behalf apply only as of the date of this document and are expressly qualified in their entirety by the cautionary statements included in this document. Except as may be required by law, we undertake no obligation to publicly update or revise any forward-looking statement to reflect events or circumstances occurring after the date of this document or to reflect the occurrence of unanticipated events.

To supplement our consolidated financial statements presented in accordance with generally accepted accounting principles (GAAP), we use certain non-GAAP measures of certain components of financial performance. These non-GAAP measures include earnings before interest, taxes, depreciation and amortization (EBITDA), Adjusted EBITDA, Adjusted Net Income (Loss), and Adjusted Earnings (Loss) per Share. These non-GAAP measures are provided to enhance investors’ overall understanding of our current financial performance and prospects for the future. We use EBITDA and Adjusted EBITDA: (a) as measurements of operating performance because they assist us in comparing our operating performance on a consistent basis as they do not reflect the impact of items not directly resulting from our core operations; (b) for planning purposes, including the preparation of our internal annual operating budget; (c) to allocate resources to enhance the financial performance of our business; (d) to evaluate the effectiveness of our operational strategies; and (e) to evaluate our capacity to fund capital expenditures and expand our business. We believe these non-GAAP measures provide useful information to both management and investors by excluding certain expenses that may not be indicative of our core operating measures. In addition, because we have historically reported certain non-GAAP measures to investors, we believe the inclusion of non-GAAP measures provides consistency in our financial reporting. These measures should be considered in addition to financial information prepared in accordance with GAAP, but should not be considered a substitute for, or superior to, GAAP results. A reconciliation of all non-GAAP measures included in this presentation to the most directly comparable GAAP measures is included in this presentation.

The following discussion should be read in conjunction with our consolidated financial statements and related notes and the information contained in our Quarterly Report on Form 10-Q for the period ended June 30, 2023.
Who We Are

Liquidity Services operates the world’s largest B2B e-commerce marketplace platform for surplus assets powering the growth of the Circular Economy.

To Power the Circular Economy, we:

• **Manage**, value, and sell surplus across the globe in a broad range of asset categories and conditions

• **Maximize** return with broadest buyer base, in our efficient global marketplace

• **Optimize** and execute surplus management strategies to achieve client business goals
What is the Circular Economy?

**Definition:** “The process of planning, implementing, and controlling the efficient, cost-effective flow of raw materials, in-process inventory, finished goods and related information from the point of consumption to the point of origin for the purpose of recapturing value...”*

*Liquidity Services* is a first mover and global leader in transforming the Circular Economy, which provides long-term investors the opportunity to drive financial returns while making a positive impact on the environment.

*Reverse Logistics Industry Council*
The Industry Leader in the Circular Economy

- 15,000+ Trusted Clients Worldwide
- 900,000+ Transactions Completed Annually
- 5 Million+ Registered Buyers
- $10 Billion+ Completed Transactions
- 130+ Fortune 1000 Global Clients
- 600+ Asset Categories Experience
- 130+ Fortune 1000 Global Clients
- 600+ Asset Categories Experience
- 5 Million+ Registered Buyers
- $10 Billion+ Completed Transactions
- LQDT ▲ Publicly Traded Since 2006 IPO
Our Purpose

To build the world’s leading marketplace for surplus assets to benefit sellers, buyers and the planet

Our Sellers
For enterprises with used, idle, or excess assets and inventory we provide:

- Expertise and intelligence that achieve high-performance results aligned to strategic goals
- Comprehensive and scalable solutions
- Superior people, processes, and systems to maximize return

Our Buyers
For organizations and consumers looking to achieve business or personal goals we offer:

- Convenient access to a wide range of assets
- Accurate, comprehensive product information and fair market prices
- Helpful, responsive customer support when it is needed

The Planet
For the planet’s natural resources, environment, and beauty we:

- Extend life of assets and inventory and increase reuse and recycling
- Prevent unnecessary waste and reduce the number of products headed to landfills
- Dispose of surplus in an environmentally safe manner
Vision and Strategic Pillars

Liquidity Services will build the world’s leading marketplace for surplus assets to benefit sellers, buyers and the planet.

**R**

**Recovery Maximization**
Drive higher net recovery through technology and innovation that improves the buyer experience

**I**

**Increase Volume**
Grow annualized volume transacted on our platform with flexible service offerings and pricing models to meet the needs of existing and new sellers

Delivering Maximum Value to Sellers

Better Service
Superior levels of industry and asset expertise, responsiveness, intelligence, and analytics that achieve high-performance results aligned to our sellers’ goals.

Better Scale
Comprehensive, modular, and scalable solutions spanning all volumes, asset categories, conditions, sales channels, and locations worldwide.

Better Results
Right combination of great people, best-in-class processes, and cutting-edge systems to deliver maximum return today and into the future.

Serving the Broadest Base of Industries

- Aerospace & Defense
- Electronic Manufacturing
- Industrial Manufacturing
- Automotive Manufacturing
- Energy
- Mining & Large Construction
- Biopharma
- Fast-Moving Consumer Goods
- Retail
- Consumer Brands & OEM’s
- Government
- Transportation

A Better Future for Surplus
© Liquidity Services, Inc. All Rights Reserved.
Providing Superior Buyer Experiences

Superior Product Quality and Information
Large volumes and recurring flows of products; refurbishment services to enhance and ensure product quality; ability to view detailed product information, ask questions, and inspect items.

Fair Prices
Auction format ensures assets are sold for fair market value; assets available all over the world, making it easy to keep shipping costs low or pick up items.

Excellent Customer Service
## Our ESG Objectives

<table>
<thead>
<tr>
<th>Category</th>
<th>Objective</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Environmental</strong></td>
<td><strong>Our Services Enable the Circular Economy.</strong> We empower corporations and governments to use our e-commerce services to resell their surplus and scrap assets, which, in turn, enables a more sustainable and circular economy.</td>
</tr>
<tr>
<td>**Economic</td>
<td><strong>We Empower Small Business Entrepreneurs.</strong> We empower small business entrepreneurs by enabling their access to a global supply of finished merchandise and capital assets, which, in turn, allows them to build and grow their businesses and contribute to the prosperity of their local communities.</td>
</tr>
<tr>
<td><strong>Opportunity</strong></td>
<td><strong>Our Diverse and Inclusive Workplace Drives Innovation.</strong> We constantly seek, develop and implement innovative new ideas to enhance our suite of solutions. To achieve this, we seek diverse perspectives, foster an inclusive workplace and strive to help each employee achieve success using each person’s unique talents, skills and contributions.</td>
</tr>
<tr>
<td><strong>Social</strong></td>
<td><strong>Trust Grows our Marketplaces.</strong> Creating trust is fundamental to the long-term growth and success of our marketplaces. Accordingly, we continuously execute and improve our services following our core values of: Integrity; Mutual Trust and Accountability; and Doing Well and Doing Good.</td>
</tr>
<tr>

## Macro-Trends Expanding Our Opportunity

### E-Commerce Growth
- Increased demand for digital, no-contact solutions driving more opportunities with sellers and buyers
  - Continued online growth in retail driving increased volume of consumer returns
  - Trending appetite for self-directed solutions
- Increasing buyer demand for discounted, refurbished and secondary market assets
  - Environmental Sustainability key goal for commercial and government sellers

### Technology Innovation
- Product obsolescence and shorter product life cycles
- Greater focus on compliance and transparency
- Higher adoption of digital marketplaces and no-contact sales channels among B2B buyers
  - Increasing need for faster disposition cycle

### Sustainability
- Focus on zero waste
- Environmental compliance requires sophisticated tools and reporting
- Extending the useful life of assets of increasing importance
Our Business Model

Compelling Model

✓ Online, no-contact and self-service solutions
✓ Diversified products, services, and customer mix globally
✓ High-volume recurring revenue
✓ Value-added managed services
✓ Additional services beyond selling assets to create higher-margin revenue streams
✓ Network effect drives recovery maximization for sellers and increasing flow of asset supply for buyers
✓ High operating leverage on future growth

Multiple, Synergistic Revenue Streams

✓ Consignment Model
✓ Purchase Model
✓ Service Revenue
✓ Subscription Revenues

GovDeals Segment

Government agencies continue to adopt our digital marketplace solutions over traditional sales methods, transacting in a broader array of assets, including vehicles, heavy equipment, and real estate.

We are leading the trend for government sellers to access a mobile-first solution

- Well-positioned to serve increasing demand for virtual solutions

GovDeals self-directed model is attractive to:

- Local, state and federal government entities
- Higher education institutions
- Non-profits

Marketing technology and increase in online procurement are driving more buyer demand

New vehicle production limitations, heightened volatility in used car market prices, and lower real estate foreclosure levels\(^{(1)}\) have currently impacted GMV on the GovDeals and Bid4Assets marketplaces in the current year.

Bid4Assets Overview

- A leading online marketplace strategically focused on conducting real property auctions for the government, including tax and mortgage foreclosure sales

- Since inception, Bid4Assets has completed the sale of over $1 billion in assets through the use of its data-driven technology and online sales platform

- With its strong track record of delivering value for government agency clients, our acquisition of Bid4Assets enhances our portfolio of digital solutions for our sellers, expands our buyer base, and strengthens our position as a leading marketplace for real estate

The results of Bid4Assets are included within our GovDeals segment
RSCG Segment

RSCG continues to diversify its client programs, sales channels, and distribution networks

Our RSCG segment benefits from:
- Retailers increasingly seeking B2B marketplace platforms to conduct resale of surplus inventory
- Flexible service offerings that enable clients to rapidly respond to changing economic conditions

Our expanded service offerings address a full spectrum of seller needs and create higher-margin revenue streams:
- Managed services for end-to-end solutions
- Self-directed solutions

These services have positioned us well to respond to recent macro trends:
- Strong e-commerce growth drives increased volume of consumer returns
- Increasing buyer demand for discounted, refurbished and secondary market assets drives growth

Changes in consumer sentiment and supply chain variability can cause fluctuations in the value and mix of products transacted in any given period.

*R Fiscal Q2 is the seasonally high quarter for reverse supply chain activity in the retail sector.
Driving growth through expansion of key verticals including heavy equipment, automotive, energy, and biopharma

Continued execution through ongoing global supply chain disruptions:

- Global supply chains are experiencing heightened uncertainty from slowing global GDP growth, the ongoing Russia-Ukraine conflict, inflationary pressures, and increasing tensions with China.

Clients continue to pursue CAG's solutions for:

- Greater need to recover investment on idle assets
- Increasing buyer demand for assets at less than new pricing

AllSurplus enables delivery of self-directed and fully managed services to our sellers, including:

- AI-driven recommendations and search to help buyers
- Real time reporting and asset status for our sellers
- Ability to bid or buy assets through multiple sales types: auctions, buy now, and offers

CAG GMV can be variable based on timing and project size
Machinio Segment

Subscriber growth and strong renewal rates from Machinio Advertising and System drove 16% revenue growth in Q3-FY23

• The Machinio worldwide search engine for used equipment aggregates more than 4.0 million active listings

• Machinio Advertising’s worldwide classifieds platform has over 3,800 subscribers, more than 1.2 million qualified leads annually, and over 500k alert email subscribers

• Machinio System’s management software for machinery dealers has over 500 subscribers

• Strong Net Renewal Rates
