From June 2000 to June 2002 he served as Assistant General Counsel for PathNet Telecommunications, formerly a wholesale telecommunications provider. Mr. Williams was a corporate associate at the law firms of Kirkland & Ellis LLP and Wilson Sonsini Goodrich & Rosati. He received his B.A. from Brown University and his J.D. from the University of Chicago Law School.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), requires our directors, executive officers and beneficial owners of greater than ten percent of our common stock to file reports of holdings and transactions in Liquidity Services' common stock with the Securities and Exchange Commission ("SEC"). Based solely on these records, we believe that in fiscal 2009 all persons satisfied these filing requirements on a timely basis.

Code of Business Conduct and Ethics

Our Board of Directors has adopted a Corporate Code of Business Conduct and Ethics (the "Code") applicable to all of our directors, officers and employees, including our principal officer, principal financial officer and principal accounting officer, in order to protect and promote organization-wide integrity and to enhance Liquidity Services' ability to achieve its mission.

The Code embodies general principles such as compliance with laws, acting with honesty and integrity, avoidance of conflicts of interest, maintenance of accurate and timely financial and business records, use of the Company's assets, working with customers, suppliers and governments, protecting the Company's information and obtaining information regarding other companies.

All directors, officers, and employees are obligated to report violations and suspected violations of the Code and any concerns they may have pertaining to non-compliance with the Code by following certain procedures described in the Code. All reports of suspected Code violations will be forwarded to the General Counsel, except for complaints and concerns involving accounting or auditing matters, which will be handled in accordance with procedures established by the Audit Committee.

The Code is available on our website, www.liquidityservicesinc.com, at "Investors—Corporate Governance—LSI—Code of Business Conduct and Ethics." A free printed copy is available to any stockholder who requests it by writing to us at Liquidity Services, Inc., Attention: Julie Davis, 1920 L St NW, 6th Floor, Washington, DC 20036.

The Audit Committee

The Audit Committee represents and assists the Board of Directors in overseeing Liquidity Services' accounting and financial reporting processes and the audits of Liquidity Services' financial statements, including the integrity of the financial statements, Liquidity Services' compliance with legal and regulatory authority requirements, the independent registered public accounting firm's qualifications and independence, the performance of Liquidity Services' independent registered public

accounting firm, and the preparation of a report of the Audit Committee to be included in Liquidity Services' annual proxy statement.

The members of the Audit Committee as of the date of this Amendment are Messrs. Fowler (Chairperson), Gross and Kramer. The Board of Directors has determined that each is independent, as defined by the Company's director independence standards and the rules of the NASDAQ Stock Market, Inc. and the SEC, and that Mr. Fowler is an "audit committee financial expert" for purposes of the rules of the SEC.

Item 11. Executive Compensation

Compensation Discussion & Analysis

This section describes our compensation strategy, programs and practices for the executive officers listed in the Summary Compensation Table that follows this discussion. In this Amendment, we refer to these individuals as our named executive officers.

Executive Summary

Our executive compensation philosophy and the elements of our executive compensation program with regard to fiscal 2009 are summarized below:

- The main objectives of our executive compensation program are to support the attainment of our short- and long-term financial and strategic objectives, reward executives for continuous growth in earnings and stockholder value, and align executives' interests with those of our stockholders.
- Our executive compensation program emphasizes performance-based compensation, including annual incentive compensation and stock-based awards, including stock options and restricted stock.
- Our Compensation Committee is responsible for evaluating and setting the compensation levels of our named executive officers. In setting compensation levels for executives, the Committee solicits the input and recommendations of our Chairman and CEO. The Compensation Committee periodically engages an independent compensation consultant to conduct market reviews of our competitive market for executive talent. The Committee did not engage a compensation consultant to conduct a review of new market data for use in determining fiscal 2009 compensation levels, but relied on data reviewed in fiscal 2008 in evaluating the compensation levels of our named executive officers.
- Compensation for our named executive officers during fiscal 2009 was lower than target levels as a result of the Company's performance, which was impacted by the economic recession and a significant decline in commodity prices. The Company's fiscal 2009 performance led to below-target annual incentive compensation for our named executive officers because we did not meet established threshold goals for company financial performance under our annual incentive bonus plan. Certain of our named executive officers received no annual incentive bonus, and the other named executive officers received bonuses ranging from 31% to 70% of their respective targets.
- To support the retention and incentive purposes of our executive compensation program, certain of our named executive officers received stock option awards in fiscal 2009 that had extended vesting terms and were greater in number than the annual stock option awards granted in fiscal 2008. At the time these annual awards were granted, all of our named executive officers had outstanding unvested options with an exercise price that exceeded our stock price.

General Compensation Philosophy

Liquidity Services' executive compensation programs are designed to support the attainment of our short- and long-term financial and strategic objectives, reward executives for continuous growth in earnings and stockholder value, and align executives' interests with those of our stockholders. The goal of Liquidity Services' compensation programs is to attract, retain and motivate key executives, and to encourage a long-term commitment to Liquidity Services. To achieve these objectives, the Compensation Committee uses a variety of compensation elements, including: base salary, annual cash incentive compensation, long-term incentive compensation and certain other compensation and benefits.

Factors Considered When Determining Compensation. The Compensation Committee seeks to set executive compensation at competitive levels that the Compensation Committee considers appropriate for a company of our size and stage of growth. On an annual basis, the Compensation Committee determines and approves the total compensation level of each of our named executive officers based on its evaluation of external market conditions, Company performance and each named executive officer's individual performance relative to pre-established performance goals and objectives. The Compensation Committee also considers each executive's level of experience, unique skills and abilities critical to the Company, and the executive's tenure, position and responsibilities with the Company. The Compensation Committee considers recommendations from the Chairman and CEO regarding levels for base salary, annual incentive awards and long-term incentive awards for named executive officers. The Chairman and CEO annually provides to the Compensation Committee historical and prospective breakdowns of the total direct compensation components for each named executive officer. The Chairman and CEO also recommends financial and non-financial performance goals for each named executive officer under the annual cash incentive compensation plan.

Market Data. Periodically, the Compensation Committee has engaged a leading industry compensation consultant to assess the market competitiveness of our executive compensation program in order to assure that our program attracts and retains executive talent essential to achieve our business plans. The most recent independent consultant review was conducted in fiscal 2008 by Towers Perrin. For 2008, the scope of the consultant's work included a review of the Company's executive compensation practices, assistance with development of an appropriate peer group, and presentation to the Compensation Committee of a report regarding executive compensation trends for similarly sized companies and the market competitiveness of our executive compensation program. The Compensation Committee did not engage a consultant to review the market competitiveness of our executive compensation program for purposes of evaluating and determining fiscal 2009 compensation. Historically, we have utilized the services of an independent compensation consultant approximately every other year. Consistent with this approach, the Compensation Committee engaged Towers Perrin in fiscal 2009 to assess the market competitiveness of our executive compensation program for purposes of evaluating and setting fiscal 2010 executive compensation. We anticipate that in future years we will utilize the services of an independent compensation consultant annually to ensure that our executive compensation program meets our objectives.

To assist the Compensation Committee in its market review in fiscal 2008, the Committee's compensation consultant prepared an analysis of the market competitiveness of the aggregate value of total direct compensation (base salary, annual incentive bonus and long-term incentives) as well as the market competitiveness of each element of compensation for each named executive officer (other than Mr. Dean, who commenced employment on October 15, 2007). The market review was based upon two different sources of compensation data provided by Towers Perrin—published surveys and a selected peer group of e-commerce companies.

The survey sources relied upon for the 2008 review were national surveys and contained compensation data for both high-technology sector companies as well as similarly sized general industry companies. For fiscal 2008, these survey sources were the 2007 Towers Perrin CDB Executive

Compensation Database; the 2007 Towers Perrin Long-Term Incentive Plan Report and the 2007/2008 Watson Wyatt Industry Report on Top Management Compensation. The survey data was used as a market reference to assess how the Company's compensation practices for top executives compare to market practices and to confirm that the overall compensation mix is reasonably aligned with the marketplace.

The peer companies utilized in the review were approved by the Compensation Committee and developed based on the Company's 2006 peer group and input from the Compensation Committee's consultant and management. The peer group data was based on the most recent publicly available information. In selecting the companies for inclusion in the peer group, the Compensation Committee considered revenues, number of employees and companies in the e-commerce industry or in our geographic area. The 2008 peer group included companies with revenues \$48 million to \$913 million. The peer group companies in fiscal 2008 were:

- | | |
|--------------------------|--------------------------------|
| • 1-800-FLOWERS.COM Inc. | • Blue Nile Inc.* |
| • Overstock.com Inc. | • Blackboard Inc. |
| • GSI Commerce Inc.* | • BIDZ.com Inc. |
| • NeuStar Inc.* | • U.S. Auto Parts Network Inc. |
| • VistaPrint Ltd.* | • LoopNet Inc.* |

* Also included in 2006 peer group

As noted above, the Compensation Committee did not commission a new independent consultant review when evaluating and determining fiscal 2009 executive compensation. However, the Compensation Committee considered the results of the fiscal 2008 market review and fiscal 2008 compensation when establishing fiscal 2009 compensation levels. The compensation decisions specific to each component of total direct compensation for the named executive officers are discussed below.

Pay Mix. Because our named executive officers are in a position to directly influence the Company's performance, a significant portion of their compensation is delivered in the form of annual cash incentive bonus and long-term incentive compensation. We rely on a mix of compensation components intended to reward short-term results (in the form of annual cash incentive bonuses) and motivate long-term performance (in the form of option grants that vest over several years). We do not have a specific allocation target between cash and equity-based compensation or between annual and long-term incentive compensation. Instead, we retain the flexibility when determining the compensation mix to react to our evolving business environment and our specific hiring and retention requirements. In fiscal 2009, with the exception of Mr. Mateus-Tique, who was expected to resign as an officer of the Company at fiscal year-end, approximately 66% or more of each of our named executive officer's target total direct compensation was performance-based (in the form of target annual cash incentive bonuses and stock options), consistent with the Company's compensation philosophy to link executive compensation with stockholder returns and achievement of strategic business objectives.

Base Salary

Purpose. Salaries for named executive officers are designed to be competitive when compared with prevailing market rates and are based on a variety of factors, including level of responsibility, performance and the recommendations of the Chairman and CEO (other than with respect to his own compensation). Base salaries are reviewed annually or at the time of promotion or other changes in responsibilities. In determining whether to award base salary increases, the Compensation Committee considers the Company's overall business outlook, the Company's budget, the executive's individual performance, historical compensation, market compensation levels for comparable positions, internal pay equity and other factors, including any retention concerns. Under the terms of the employment agreements in place with our named executive officers, the Compensation Committee may not adjust the salary of a named executive officer downward unless the named executive officer consents to a reduction.

Periodically, the Compensation Committee utilizes a report of market compensation levels prepared by its independent compensation consultant in order to evaluate the executive's base salaries. Such a report was prepared for use by the Compensation Committee in setting base salaries for fiscal 2008. In years a report is not prepared, as was the case in establishing the fiscal 2009 base salaries, the most recent report's findings are typically reviewed by the Compensation Committee when determining any salary adjustments. The Compensation Committee generally seeks to set base salaries between the 25th and 50th percentile of the peer group, adjusting for experience and other factors such as tenure, individual performance and responsibilities.

Fiscal 2009 Decisions. The Compensation Committee approved base salary increases for our named executive officers in fiscal 2009. These increases were based on the Compensation Committee's evaluation of individual performance, internal pay equity, increases in the cost of living and the 2008 study of market compensation. In light of these factors, the Compensation Committee approved increases for our named executive officers ranging from 4 to 6%. These increases primarily reflect a cost of living adjustment over the prior year's base salary that had been determined based on the fiscal 2008 report of market compensation.

Effective October 1, 2008, our named executive officers received the following salary increases:

<u>Named Executive Officer</u>	<u>2008 Salary</u>	<u>2009 Salary</u>	<u>Percentage Increase</u>
William P. Angrick, III	\$ 288,750	\$ 303,188	5%
James M. Rallo	252,000	267,120	6%
Jaime Mateus-Tique	260,000	270,300	4%
Eric C. Dean	250,000	265,000	6%
Thomas B. Burton	255,000	267,750	5%

Annual Incentive Compensation

Purpose. Annual incentive compensation is an "at risk" performance-based cash bonus that is designed to motivate our named executive officers to achieve pre-established corporate financial and individual performance objectives that are consistent with the Company's strategic plan. Bonuses under the plan are payable if, and only to the extent that, these pre-established objectives are achieved. Compensation paid under the plan has varied significantly from year to year. For example, over the last three years, the bonus of our Chairman and CEO has ranged from 0 to 112% of his base salary.

The annual incentive bonus plan is also designed to attract and retain key employees by providing our named executive officers with a significant opportunity to earn additional annual cash compensation. As noted below, the target opportunities of our named executive officers range from 50% to 100% of base salary, with a maximum opportunity of between 100% to 200% of base salary. The Committee strives to set the annual incentive plan target opportunity at the median of the peer

group with potential for upper quartile pay based on superior performance of the Company and the individual.

Fiscal 2009 Target Bonus Opportunities. At the beginning of each fiscal year, the Committee establishes the performance goals and target and maximum cash bonus awards for each named executive officer. Each target and maximum cash bonus award is set as a percentage of each named executive officer's base salary. The amount of the cash bonus ultimately awarded depends on the achievement of performance goals. The "Grants of Plan-Based Awards for Fiscal 2009" table on page 20 shows the range of possible payments to each of our named executive officers under the annual incentive bonus plan in fiscal 2009.

For fiscal 2009, the annual incentive cash award target and maximum bonus of our named executive officers were:

<u>Named Executive Officer</u>	<u>Fiscal 2009 Target Bonus Percentage of Base Salary</u>	<u>Fiscal 2009 Annual Incentive Target</u>	<u>Fiscal 2009 Maximum Bonus Percentage of Base Salary</u>
William P. Angrick, III	100%	\$ 303,188	200%
James M. Rallo	60%	160,272	100%
Jaime Mateus-Tique	80%	216,240	200%
Eric C. Dean	50%	132,500	100%
Thomas B. Burton	80%	214,200	160%

The Committee established these target and maximum cash bonus award opportunities based upon (1) the relative scope and responsibility of the named executive officer's position and his respective impact on overall Company performance and (2) comparative compensation data based on the Committee's review of the competitive market conducted in fiscal 2008. For fiscal 2009, the Committee only increased the bonus opportunity for Mr. Rallo, which changed from 50% to 60% of his base salary. The Compensation Committee increased his target bonus to reflect his expanded role in the Company's strategic business acquisition program and his contributions to the Company's strategic plan. The Compensation Committee determined that the target bonus opportunities of our other named executive officers were at or near the median of the competitive market data reviewed in fiscal 2008.

Fiscal 2009 Performance Goals. During the beginning of the fiscal year, the Compensation Committee established performance goals for the plan based on recommendations from management. For fiscal 2009, the Committee determined that awards under the plan for our named executive officers other than Mr. Burton would be based on the achievement of two corporate performance goals and achievement of certain individual strategic objectives. For Mr. Burton, the Committee determined that his bonus would be based almost entirely on one financial performance goal of the DOD Surplus Division rather than Company-wide performance metrics. The Compensation Committee also evaluates individual performance measured against the individual management objectives described below to determine the actual bonus earned by a named executive officer. The performance goals carry different weights for our named executive officers based on their position and responsibilities. Based on recommendations of management, Messrs. Angrick's and Mateus-Tique's performance goals in fiscal 2009 were significantly weighted towards the achievement of individual performance objectives. As described further below, the individual performance objectives of Messrs. Angrick and Mateus-Tique include important strategic and operational goals that the Compensation Committee determined were

necessary to further the Company's strategic plan and profitability. The relative weights assigned to corporate, divisional and individual goals for fiscal 2009 are as follows:

<u>Name and Principal Position</u>	<u>Corporate GMV</u>	<u>Corporate Adjusted EBITDA</u>	<u>Divisional Performance</u>	<u>Individual Performance</u>
William P. Angrick, III <i>Chairman and Chief Executive Officer</i>	20%	20%	0%	60%
James M. Rallo <i>Chief Financial Officer and Treasurer</i>	35%	35%	0%	30%

Similar to fiscal 2008, the Committee's evaluation of the Company's financial performance under the plan for fiscal 2009 was based on two Company-wide goals—Gross Merchandise Volume (GMV) and Adjusted EBITDA. GMV measures the total sales volume of all merchandise sold through the Company's marketplaces during a given period. Adjusted EBITDA is based on the measurement of earnings before interest, taxes, depreciation and amortization, as adjusted for non-cash stock compensation expense. The Committee selected these metrics as the corporate performance measures because they continue to be key metrics used by management to measure the Company's business performance and the basis upon which we communicate forward-looking financial information to the investment community. The target GMV goal for fiscal 2009 was \$413.7 million, approximately 15% greater than fiscal 2008 results. If the Company had achieved a GMV of less than \$395.0 million, then no bonus would have been earned with respect to this goal. The target Adjusted EBITDA goal established for fiscal 2009 was \$26.6 million, reflecting a 1.5% increase over fiscal 2008 results. If the Company had achieved an Adjusted EBITDA of less than \$24.0 million, then no bonus would have been earned with respect to this goal. If the threshold goal for either GMV or Adjusted EBITDA had been achieved, then a named executive officer would have earned 60% of his target bonus percentage for each goal.

The performance goal selected for the DOD Surplus Division for fiscal 2009 was based on the division's Adjusted EBITDA. Similar to the corporate metric, Adjusted EBITDA for the DOD Surplus Division is based on the measurement of earnings before interest, taxes, depreciation and amortization, as adjusted for non-cash stock compensation expense. Because we believe disclosure of the Adjusted EBITDA results for the DOD Surplus Division would cause the Company competitive harm by publishing sensitive information that would not otherwise be disclosed, the Company is not disclosing this target. The Committee cannot specify the degree of difficulty required to meet the Adjusted EBITDA target, but believes that achievement of the target goal would have required substantial and sustained performance by the division. The target Adjusted EBITDA goal was consistent with the Company's annual business plan and strategic objectives, and achievement of the target goal required the successful competition for and award of our surplus contract with the Department of Defense and year over year growth of 42% when adjusting for the change in commodity prices and the loss of certain property categories under the terms of our new surplus contract. Achievement of the threshold Adjusted EBITDA goal, which would have resulted in 44% of the target bonus percentage for this goal being earned, required the successful competition for and award of our surplus contract with the Department of Defense and year over year growth of 28% when adjusting for the change in commodity prices and the loss of certain property categories under the terms of our new surplus contract.

The individual performance goals established for each of our named executive officers varied based on his relative job responsibilities and emphasized improvement in metrics or operational objectives within the control of each named executive officer. Each of our named executive officers, other than Mr. Burton, had four individual management objectives designed to further each of the following Company strategic initiatives: diversification and growth, client retention, expansion of the Company's service offerings and operational effectiveness. Mr. Burton had one individual management objective, as noted above, that was linked to the performance of the DOD Surplus Division. Each individual management objective is weighted differently as noted below. To the extent that an objective was determined to be critical to the Company's strategy and business plan, it may have served as an individual objective of more than one named executive officer. In order to receive a bonus for this component, with the exception of Mr. Burton, at least 60% of the individual objectives must be achieved.

Our Chairman and Chief Executive Officer's individual performance was evaluated based on the following four individual objectives:

- Successful launch of our new surplus contract with the Department of Defense by the achievement of budgeted gross margin and inventory accuracy under the new surplus contract (*Weight: 25%*)
- Improve U.S. commercial operations and service levels measured by achievement of budgeted gross margin, improvement in the operating leverage on fixed costs and achievement of an average inventory velocity of 60 days or less (*Weight: 50%*)
- Improve UK commercial operations and service levels measured by achievement of budgeted gross margin, improvement in the operating leverage on fixed costs and achievement of an average inventory velocity of 60 days or less (*Weight: 15%*)
- Completion of a strategic acquisition (*Weight: 10%*)

Mr. Rallo's individual performance was evaluated based on the following four individual objectives:

- Successful launch of our new surplus contract with the Department of Defense by implementing new finance organization, procedures and practices, strengthening controls over inventory to achieve a high level of inventory accuracy, implementing inventory risk management procedures and achieving agreed-upon inventory velocity (*Weight: 25%*)
- Improve U.S. commercial operations measured by achievement of an average inventory velocity of 60 days or less and 99% inventory accuracy, implementation of inventory risk management procedures and maintenance of our current chargeback ratio as well as processing times for chargebacks and refund requests (*Weight: 25%*)
- Improve UK commercial operations and service levels by reorganizing and strengthening the finance organization in the UK, achieving 99% inventory accuracy and development of inventory risk management procedures (*Weight: 25%*)
- Development of enhanced Inventory Management System in the U.S. and the UK (*Weight: 25%*)

Mr. Mateus-Tique's individual performance was evaluated based on the following four individual objectives:

- Completion of a strategic acquisition (*Weight: 10%*)
- Improve U.S. commercial operations and service levels measured by achievement of budgeted gross margin, improvement in the operating leverage on fixed costs and achievement of an average inventory velocity of 60 days or less (*Weight: 50%*)
- Improve UK commercial operations and service levels measured by achievement of budgeted gross margin, improvement in the operating leverage on fixed costs and achievement of an average inventory velocity of 60 days or less (*Weight: 20%*)

- Development of enhanced Inventory Management System in the U.S. and the UK and development of enhanced LCOM website user experience (*Weight: 20%*)

Mr. Dean's individual performance was evaluated based on the following four individual objectives:

- Implementation of new technology organization to support Company's growth objectives (*Weight: 25%*)
- Establishment and achievement of goals for project elements under control of the technology department (*Weight: 40%*)
- Success in supporting the Company's business platform by meeting all technology project deliverables based on internal survey results (*Weight: 25%*)
- Improve inventory accuracy and controls to achieve 99% inventory accuracy on a consolidated basis (*Weight: 10%*)

Mr. Burton's individual performance was evaluated based on the DOD Surplus Division's Adjusted EBITDA results and the following individual objective:

- Ensure that no inventory of the DOD Surplus Division is aged over 90 days, unless otherwise approved for business reasons (*Weight: 100%*)

Fiscal 2009 Results and Payouts. At the end of the performance year, our Chairman and CEO assessed the achievement of the Company and individual performance goals and made a recommendation to the Committee regarding the annual bonus payouts. The target cash bonus of each of our named executive officers is shown in the "Grants of Plan-Based Awards for Fiscal 2009" table, and the actual amounts earned by our named executive officers are shown in the "Non-Equity Incentive Compensation" column of the Summary Compensation Table.

In determining the amount of the fiscal 2009 awards, the Committee assessed the Company's and each named executive officer's performance measured against the previously described corporate, divisional and individual management objectives. For fiscal 2009, the Company did not achieve the threshold performance goals with respect to either Adjusted EBITDA or GMV, and, as a result, these components were not included in determining the annual bonus to be paid to our named executive officers. The failure to achieve these threshold performance goals was primarily attributable to the current economic downturn and a significant decline in commodity prices.

The Compensation Committee did not award an annual cash incentive bonus to Messrs. Angrick and Mateus-Tique because the Company failed to achieve its threshold corporate performance goals, and neither executive achieved the threshold level to receive a bonus payment based on individual management objectives. Mr. Angrick achieved 57% of his individual objectives, including successfully launching the Company's new surplus contract, completing a strategic acquisition in fiscal 2009, and improving inventory velocity. Mr. Mateus-Tique achieved 43% of his individual objectives, including completing a strategic acquisition and improving inventory velocity. Mr. Rallo was awarded 31% of his target bonus, resulting in a bonus payment of \$49,684, based on the achievement of 92% of his individual management objectives. Mr. Rallo achieved all his individual management objectives except for attainment of improved inventory accuracy in the UK commercial operations. Mr. Rallo's bonus was increased slightly to \$50,000 because his employment agreement requires that he receive a minimum bonus of \$50,000. Mr. Dean was awarded 70% of his target bonus due to his achievement of each of his individual management objectives. Mr. Burton was awarded 110% of his target bonus due to the DOD Surplus Division's achievement of 110% of its Adjusted EBITDA target and Mr. Burton's achievement of 95% of his target inventory aging objective.

Fiscal 2010 Bonus Plan. At its December 2009 meeting, the Compensation Committee determined that the corporate financial measures for our fiscal 2010 annual incentive compensation plan will be GMV and Adjusted EBITDA, similar to our fiscal 2009 plan. A portion of each named executive officer's annual bonus that may be earned based on the Corporate GMV and Adjusted

EBITDA goals may be paid quarterly based on the Company's pro-rata performance compared to each annual goal established for these corporate financial measures. Quarterly bonus payments will be adjusted each quarter based on cumulative performance. With the exception of Mr. Burton, a portion of each named executive officer's bonus will be based on GMV for the Asset Recovery Division. GMV for the Asset Recovery Division was added as a divisional performance goal in fiscal 2010 because of the Compensation Committee's desire to incentivize the Company's executive officers to improve the performance of this division. The Compensation Committee kept bonus opportunities for our named executive officers consistent with fiscal 2009. The relative weight assigned to corporate, divisional and individual goals for fiscal 2010 is as follows:

<u>Name and Principal Position</u>	<u>Corporate GMV</u>	<u>Corporate Adjusted EBITDA</u>	<u>Divisional Performance*</u>	<u>Individual Performance</u>
William P. Angrick, III <i>Chairman and Chief Executive Officer</i>	15%	35%	25%	25%
James M. Rallo <i>Chief Financial Officer and Treasurer</i>	30%	30%	10%	30%
Eric C. Dean <i>Chief Information Officer</i>	20%	20%	10%	50%
Thomas B. Burton <i>President and Chief Operating Officer, DOD Surplus, LLC</i>	0%	0%	90%	10%

* Divisional Performance for Messrs. Angrick, Rallo and Dean is measured with respect to the Asset Recovery Division; for Mr. Burton, Divisional Performance is measured with respect to the DOD Surplus Division.

Long-Term Incentive Compensation

Purpose. We grant equity-based compensation to our named executive officers in order to attract, retain and reward our executives and strengthen the mutuality of interests between our named executive officers and Liquidity Services' stockholders. The Compensation Committee annually determines whether to grant stock options or other equity-based incentives to executives. In making its determinations, the Compensation Committee considers factors such as market data, the executive's and the Company's performance in the last year and the results achieved by the executive, the executive's base salary and the Compensation Committee's view regarding the future potential of long-term contributions of the executive. Recommendations of the Chairman and CEO are also taken into consideration.

The Compensation Committee has historically granted our named executive officers long-term incentive awards in the form of stock options. Our long-term incentive compensation program in fiscal 2009 provided grants of stock options and restricted stock under our 2006 Omnibus Long-Term Incentive Plan, which has been approved by our stockholders. The Compensation Committee has historically granted annual equity awards with respect to each fiscal year after financial results are available for the prior fiscal year at a regularly scheduled meeting. As the Compensation Committee's meeting schedule is established prior to the start of each fiscal year, the proximity of any award grants to earnings announcements or other market events is coincidental. For annual awards, the Compensation Committee's policy is to grant options on the date it approves them. The exercise price is determined in accordance with the terms of the plan under which the award is granted (generally, the closing price on the date of grant) and cannot be less than the fair market value of our Common Stock as of that date. In addition to annual options awards, our named executive officers may receive stock options in connection with the commencement of employment or upon promotion. In these cases,

the exercise price is typically the closing price of our common stock on the date the executive begins employment or the effective date of the promotion.

Fiscal 2009 Awards. In 2008, the Compensation Committee approved grants of stock options to our named executive officers except for Mr. Mateus-Tique. The Compensation Committee awarded Mr. Mateus-Tique restricted stock whose restrictions lapsed at fiscal-year end because he was expected to resign from his service as an officer of the Company at that time.

In determining the size of the grants to our named executive officers, the Compensation Committee considered the size of equity awards granted in fiscal 2008, the scope of job responsibilities, the current economic environment and recommendations of management. Generally, the Committee seeks to target named executive officers' annual long-term incentive award values at a level between the 50th and 75th percentile of the Company's fiscal 2008 peer group based on a target value as a percentage of base salary. The grant date fair values of options awarded to our named executive officers in fiscal 2008 were within this range. However, in fiscal 2009, the Compensation Committee did not determine the size of equity awards to be granted to named executive officers based on a grant date fair value. Instead, the Compensation Committee determined to award option grants to our named executive officers based on the number of options granted in fiscal 2008. Our named executive officers other than Messrs. Angrick and Mateus-Tique were granted a higher number of options than were granted to such officers in fiscal 2008. Mr. Angrick received slightly less than the number of options he received in fiscal 2008.

The Compensation Committee determined to grant a higher number of option awards in fiscal 2009 to Messrs. Rallo, Dean and Burton than were granted to such officers in fiscal 2008 in order to retain and incentivize these named executive officers. The Compensation Committee believes that the value of issued but unvested option awards meaningfully encourages executives to remain with the Company because leaving the Company results in the forfeiture of the unvested value of previously accumulated long-term equity awards. Since our stock price had declined to \$7.48 at the time fiscal 2009 awards were granted, most of the outstanding stock options held by our named executive officers had exercise prices that exceeded our share price. As long as the exercise price exceeds our share price, the Compensation Committee determined that outstanding options have little value to our executives and will not serve the Company's retention and incentive objectives. The Compensation Committee determined that granting increased equity awards in fiscal 2009 as compared to the number of options granted in fiscal 2008 was appropriate and consistent with our philosophy of awarding long-term equity incentives to retain and reward our executives and to strengthen the mutuality of interests between our named executive officers and our stockholders. To increase the retentive value of these awards, the Compensation Committee increased the vesting period to a five-year period, with 25% vesting on October 1, 2009, and the remainder vesting in equal monthly increments over the following 48 months. The Company's standard vesting schedule for stock options has previously been four years. The Compensation Committee did not grant an annual equity award in fiscal 2010 to named executive officers who received an equity award in fiscal 2009 that was larger than the fiscal 2008 award.

Mr. Angrick did not receive an "enhanced" equity award in fiscal 2009 because the Compensation Committee determined that a larger award would not more effectively serve the Company's retention objectives with respect to Mr. Angrick because he is currently a significant stockholder in the Company. As noted above, Mr. Angrick received slightly less than the number of stock options he received in fiscal 2008. Mr. Mateus-Tique received a restricted stock award because of the transition of the day-to-day management responsibilities for the Asset Recovery Division from Mr. Mateus-Tique to Cayce Roy at fiscal year-end. The grant date fair value of Mr. Angrick's stock option award was approximately 95% of his base salary, determined by multiplying the Black-Scholes value per option by the number of options awarded. Mr. Mateus-Tique's restricted stock award had a grant date fair value equal to 28% of his base salary, calculated by multiplying the closing price of our common shares on the grant date times the number of restricted shares awarded.

The number of stock options and restricted stock granted to our named executive officers in fiscal 2009 is included in the "Grants of Plan-Based Awards for Fiscal 2009" table. The terms and conditions of the grants are more fully described in the footnotes and narrative following that table.

Fiscal 2010 Equity Awards. At its December 2009 meeting, the Compensation Committee granted Mr. Angrick a mix of stock options and restricted stock awards for fiscal 2010. These awards were granted on December 1, 2009. Approximately 60% of the equity award value was in the form of stock options, and 40% was in the form of restricted stock. Messrs. Rallo, Dean and Burton did not receive a similar annual equity award grant in fiscal 2010 because of the number of stock options granted to them in fiscal 2009, as described above.

Each of our named executive officers who remained employed in fiscal 2010 was also awarded performance-based restricted stock whose restrictions will lapse upon achievement of a consolidated Adjusted EBITDA goal established by the Compensation Committee based on recommendations of management. The restrictions on these shares of restricted stock may lapse during fiscal 2010 if the performance goal is achieved, but the awards will expire on December 31, 2010 if the goal is not achieved by that date.

Other Compensation and Benefit Programs

Our named executive officers are eligible to participate in benefit plans that are available to substantially all of our employees, including participation in the Liquidity Services, Inc. 401(k) Profit Sharing and Trust Plan, medical insurance, dental insurance, life insurance and disability insurance programs.

Perquisites

Except with respect to Mr. Burton, we do not provide our named executive officers with any additional benefits or perquisites not available to all other employees. In fiscal 2009, Mr. Burton was provided the use of a Company-owned car. The value of this benefit is described in the footnotes to the Summary Compensation Table on page 16.

Employment Agreements

We have entered into employment agreements with each of our named executive officers that provide for, among other things, specified payments in the event of termination of employment in certain circumstances. The terms of these agreements are described beginning on page 17 of this Amendment. The Committee believes it is important to provide our named executive officers with some measure of financial security in the event that their employment with the Company is terminated without cause or in connection with certain unforeseen circumstances. The Committee believes that these arrangements encourage an executive to comply with post-termination restrictive non-competition covenants and to cooperate with the Company both before and after his employment is terminated. The Committee believes that these arrangements are reasonable and that it is beneficial to have agreements in place that specify the exact terms and benefits an executive receives if the Company elects to terminate a named executive officer's employment.

Stock Ownership

There are no equity ownership requirements or guidelines that any of our employees must meet or maintain. Our current named executive officers collectively own a significant amount of Company Common Stock. As a group, our named executive officers own 40.6% of the Company.

Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code of 1986, as amended (Internal Revenue Code), limits publicly-held companies to an annual deduction for federal income tax purposes of \$1 million for compensation paid to a company's chief executive officer and the three most highly compensated executive officers (not including the chief financial officer) determined at the end of each year. This limitation does not apply to compensation that meets the requirements under Section 162(m) for "qualifying performance-based" compensation. For fiscal 2009, payments of annual bonuses and the grants of stock options were intended to qualify as performance-based compensation. In fiscal 2009, none of our named executive officers received compensation above the \$1 million threshold.

Summary Compensation Table

The following table summarizes the compensation of our named executive officers, which includes our principal executive officer, principal financial officer and our three other most highly compensated executive officers.

- (1) Each of the named executive officers contributed a portion of his salary to the Liquidity Services, Inc. 401(k) Profit Sharing and Trust Plan.
- (2) The amounts reported in these columns are recognized for financial statement reporting purposes for the applicable year, in accordance with U.S. generally accepted accounting principles, disregarding estimates of forfeitures related to service-based vesting conditions. Under the methodology required under U.S. generally accepted accounting principles, the compensation expense reflected is for grants made in fiscal 2009 and grants made in prior years that continued to be expensed in fiscal 2009. The full grant date fair value of awards granted in fiscal 2009, as determined under U.S. generally accepted accounting principles, is included in the "Grants of Plan-Based Awards for Fiscal 2009" table included in this Amendment. For additional information about the assumptions used in these calculations, see Note 2 to our audited consolidated financial statements included in our Annual Report on Form 10-K for the fiscal year ended September 30, 2009. No stock or option awards granted to our named executive officers were forfeited during fiscal 2009, 2008 or 2007.
- (3) The amounts in the Non-Equity Incentive Plan Compensation column represent the annual cash incentive bonuses described under the section of this Amendment entitled "Annual Incentive Compensation." These annual cash bonuses were paid in fiscal 2010 for performance in fiscal 2009. We accrued these amounts for financial reporting purposes in fiscal 2009.

- (4) The amounts in this column for each named executive officer include Company matching contributions to the Liquidity Services, Inc. 401(k) Profit Sharing and Trust Plan. For Mr. Burton, the amount represents \$4,234 in matching contributions and \$7,049 for a car provided by the Company.
- (5) Mr. Mateus-Tique resigned from his employment with the Company effective September 30, 2009, but continued his service as a non-employee director effective October 1, 2009.
- (6) Mr. Dean became our Chief Information Officer effective October 15, 2007 and was not a named executive officer in fiscal year 2007. In accordance with SEC rules, the table above does not provide 2007 data for him.

Employment Agreements

We have entered into employment agreements with all of our named executive officers that provide for, among other things, the term of employment, compensation and benefits payable during the term of the agreement and certain compensation payable when an executive's employment is terminated under certain conditions.

We also have confidentiality, non-competition and intellectual property agreements with the named executive officers. These agreements typically provide that the employee may not disclose or transfer any of our confidential information to any person, business entity or other organization without authorization from us, and that the employee may not, during his or her employment with us and for 24 months thereafter, hire or solicit any of our employees for employment with another person or entity or in any way interfere with the relationship we have with any of our employees, clients or other business relationships. Further, these agreements also typically provide that the employee may not, during his employment with us and for up to 24 months thereafter, compete with us. These agreements typically also provide that all ideas, designs, works and inventions made by the employee in the course of his or her employment with us are our exclusive property, and that the copyrights of all writings produced by the employee during the course of his or her work for us are the property of our Company.

Summary of Employment Agreement with William P. Angrick, III

We entered into an employment agreement with Mr. Angrick effective as of January 1, 2004. The agreement provides that Mr. Angrick will be employed as our Chairman and Chief Executive Officer and that his employment will continue until terminated by either party pursuant to the terms of the agreement. The agreement provided for an initial annual base salary of \$210,000, which may be increased but not decreased. During fiscal 2009, Mr. Angrick received a salary of \$303,188, which was approved by the Compensation Committee. Mr. Angrick is also eligible for an annual incentive bonus under a sliding scale as approved by the Compensation Committee that is equal to up to 100% of his base salary based upon the achievement of our financial budget each year. In addition, he is eligible to receive an additional bonus amount for the completion of projects that increase stockholder value, at the discretion of the Compensation Committee. If Mr. Angrick's employment is terminated as a result of his death, his estate will receive his base salary through the next full calendar month and all other unpaid amounts. If Mr. Angrick's employment is terminated because of disability, he is entitled to his base salary through the third full calendar month after termination and all other unpaid amounts, provided that his base salary will be reduced by any amounts received under any disability insurance provided by the Company.

The agreement also provides that if his employment with the Company is terminated by us other than for cause, disability or death, or is terminated by Mr. Angrick for good reason, Mr. Angrick is entitled to receive: (1) his base salary through the date of termination and all other unpaid amounts and (2) a lump-sum severance package equal to six months of the sum of his base salary plus an amount equal to six months of his average annual bonus for the previous two fiscal years. All severance payments made by us to Mr. Angrick will be payable within 30 days of notice of termination. Mr. Angrick's employment agreement was amended effective January 26, 2006 to address certain

requirements of Section 409A of the Internal Revenue Code and effective January 9, 2007 to extend the term from December 31, 2006 to December 31, 2009. Mr. Angrick's employment agreement has been extended until December 31, 2010, after which date the agreement shall be renewed automatically for a term of one year unless either party terminates the agreement.

Summary of Employment Agreement with James M. Rallo

We entered into an employment agreement with Mr. Rallo effective as of February 21, 2005. The agreement provides that Mr. Rallo will be employed as our Chief Financial Officer and Treasurer until February 20, 2012. During fiscal 2009, Mr. Rallo received a salary of \$267,120, which was approved by the Compensation Committee. Mr. Rallo is also eligible for an annual incentive bonus of up to 60% of his salary and it must be at least \$50,000, subject to the achievement of certain deliverables and milestones.

If Mr. Rallo's employment is terminated as a result of his death, his estate will receive his base salary through the next full calendar month and all other unpaid amounts. If Mr. Rallo's employment is terminated because of disability, he is entitled to his base salary through the third full calendar month after termination and all other unpaid amounts, provided that his base salary will be reduced by any amounts received under any disability insurance provided by the Company. This agreement also provides that if his employment with our Company is terminated by us other than for cause, disability or death, or is terminated by Mr. Rallo for good reason, Mr. Rallo is entitled to receive: (1) his base salary through the date of termination and all other unpaid amounts; and (2) a lump-sum severance package equal to the sum of twelve months of his base salary plus an amount equal to his average annual bonus for the previous two fiscal years. All severance payments made by us to Mr. Rallo will be payable within 30 days of notice of termination. Mr. Rallo's employment agreement was amended effective January 25, 2006 to address certain requirements of Section 409A of the Internal Revenue Code.

Summary of Employment Agreement with Jaime Mateus-Tique

We entered into an employment agreement with Mr. Mateus-Tique effective as of January 1, 2004. Mr. Mateus-Tique was employed by us under this agreement until he resigned as our President and Chief Operating Officer as of September 30, 2009. The agreement provided for an initial annual base salary under the agreement of \$180,000, which may be increased but not decreased. During fiscal 2009, Mr. Mateus-Tique received a salary of \$270,300, which was approved by the Compensation Committee. Mr. Mateus-Tique was also eligible for an annual incentive bonus under a sliding scale as approved by the Compensation Committee that is equal to up to 80% of his base salary based upon the achievement of certain performance goals. He was also eligible to receive bonuses for the completion of projects that increase stockholder value, at the discretion of the Compensation Committee. If Mr. Mateus-Tique's employment was terminated as a result of his death, his estate would have received his base salary through the next full calendar month and all other unpaid amounts. If Mr. Mateus-Tique's employment was terminated because of disability, he would have been entitled to his base salary through the third full calendar month after termination and all other unpaid amounts, provided that his base salary would have been reduced by any amounts received under any disability insurance provided by the Company. This agreement also provided that if his employment with our Company was terminated by us other than for cause, disability or death, or was terminated by Mr. Mateus-Tique for good reason, Mr. Mateus-Tique would have been entitled to receive: (1) his base salary through the date of termination and all other unpaid amounts; and (2) a lump-sum severance package equal to six months of the sum of his base salary plus an amount equal to six months of his average annual bonus for the previous two fiscal years. All severance payments made by us to Mr. Mateus-Tique were payable within 30 days of notice of termination. Mr. Mateus-Tique's employment agreement was amended

effective January 25, 2006 to address certain requirements of Section 409A of the Internal Revenue Code and effective January 9, 2007 to extend the term from December 31, 2006 to December 31, 2009.

Summary of Employment Agreement with Eric C. Dean

We entered into an employment agreement with Mr. Dean, effective as of October 15, 2007. The agreement provides that Mr. Dean will be employed as our Chief Information Officer and that his employment will continue until October 15, 2010, or until terminated by either party pursuant to the terms of the agreement. The agreement provides for an initial annual base salary of \$250,000, which may be increased but not decreased. During fiscal 2009, Mr. Dean received a salary of \$265,000, which was approved by the Compensation Committee. Mr. Dean is also eligible for an annual incentive bonus; for fiscal 2009, the annual bonus target was 50% of his base salary, based upon the achievement of certain deliverables or goals agreed upon by Mr. Dean and the Company. The agreement also set forth the terms of an initial hire option award, subject to approval of the Compensation Committee. Mr. Dean was granted an option to purchase 250,000 shares of our common stock at a per share exercise price equal to \$13.56, which was the fair value of our common stock on the date of grant.

If Mr. Dean's employment is terminated as a result of his death, his estate will receive his base salary through the next full calendar month and all other unpaid amounts. If Mr. Dean's employment is terminated because of disability, he is entitled to his base salary through the third full calendar month after termination and all other unpaid amounts, provided that his base salary will be reduced by any amounts received under any disability insurance provided by the Company. This agreement also provides that if his employment with our Company is terminated by us other than for cause, disability or death, or is terminated by Mr. Dean for good reason, Mr. Dean is entitled to receive: (1) his base salary through the date of termination and all other unpaid amounts; and (2) a lump-sum severance package equal to one month of his base salary plus an amount equal to one month of the average bonus for the previous two fiscal years. After three months of employment, the lump-sum severance package will be equal to six months of his base salary plus an amount equal to six months of the average bonus for the previous two fiscal years. All severance payments made by us to Mr. Dean will be payable within 30 days of notice of termination.

Summary of Employment Agreement with Thomas B. Burton

We entered into an employment agreement with Mr. Burton effective as of June 15, 2001, with a one-year term with automatic one year renewals. The agreement provides that Mr. Burton will be employed as President of DOD Surplus, LLC, our subsidiary, and that his employment will continue until terminated by either party pursuant to the terms of the agreement. The agreement provided for an initial annual base salary under the agreement of \$175,000, in addition to payment of 50% of the premiums for medical and dental insurance for Mr. Burton, his spouse and dependents. During fiscal 2009, Mr. Burton received a salary of \$267,750, which was approved by the Compensation Committee. In addition, Mr. Burton is eligible to receive a bonus upon the attainment of certain performance milestones.

If Mr. Burton's employment is terminated as a result of his death, his estate will receive his base salary through the last day of the calendar month of the date of termination and all other unpaid amounts. This agreement also provides that if his employment with our Company is terminated by us other than for cause or Mr. Burton's disability or death, Mr. Burton is entitled to receive: (1) his base salary through the date of termination; and (2) a lump-sum severance package equal to six months of the sum of his base salary plus healthcare benefits. All severance payments made by us to Mr. Burton will be conditioned upon Mr. Burton's execution of a release of all claims against us, our affiliates, officers, directors and employees. Mr. Burton's employment agreement was amended effective January 25, 2006 to address certain requirements of Section 409A of the Internal Revenue Code.

Grants of Plan-Based Awards for Fiscal 2009

The following table provides additional information about plan-based awards granted to our named executive officers in fiscal 2009. Our named executive officers generally received three types of plan-based awards: Incentive Compensation Plan awards, stock options and restricted stock awards.

(1) Amounts shown represent the threshold, target and maximum awards that could be earned by the named executive officer under our annual incentive bonus plan for fiscal 2009. Actual bonuses paid for fiscal 2009 are shown in the Summary Compensation Table in the "Non-Equity Incentive Plan Compensation" column. For a discussion of this plan, see "Executive Compensation—Annual Incentive Compensation."

- (2) The stock awards granted during fiscal 2009 were granted under the Liquidity Services, Inc. 2006 Omnibus Long-Term Incentive Plan and fully vested on September 30, 2009. The shares of restricted stock accrue dividend equivalents that are payable upon the lapse of the restrictions applicable to such shares.
- (3) The options reported in this column were granted under the Liquidity Services, Inc. 2006 Omnibus Long-Term Incentive Plan. The options granted to Mr. Angrick vest over a four-year period, with 25% vesting on the first anniversary of the grant date and 2.083% per month vesting thereafter for the following 36 months and have a term of 10 years. The options granted to Messrs. Rallo, Dean and Burton vest over a five-year period, with 20% vesting on the first anniversary of the grant date and 1.67% per month vesting thereafter for the following 48 months and have a term of 10 years.
- (4) All stock options other than those granted to Mr. Angrick have an exercise price equal to the closing price of our common stock on the grant date (\$7.48). The exercise price of options granted to Mr. Angrick was \$8.23, or 110% of the closing price of our common stock on the grant date, determined in accordance with the 2006 Omnibus Long-Term Incentive Plan.
- (5) The amounts reported in this column for awards represent the full grant date fair value of the awards calculated in accordance with U.S. generally accepted accounting principles. The value of the restricted stock as of the grant date is calculated by multiplying the closing price of our common shares on the grant date times the number of restricted shares awarded. For option awards the grant date fair value is calculated by multiplying the Black-Scholes value by the number of options awarded. The grant date fair value per option for the stock options granted on December 29, 2008 to Mr. Angrick and the other named executive officers was \$3.614 and \$4.218, respectively, computed in accordance with U.S. generally accepted accounting principles. For additional information about the assumptions used in these calculations, see Note 2 to the audited consolidated financial statements of the Company included in our Annual Report on Form 10-K for the fiscal year ended September 30, 2009.

The following is a description of material factors necessary to understand the information regarding the awards reflected in the "Grants of Plan-Based Awards for Fiscal 2009" table.

For information regarding the incentive compensation plan, please see "Annual Incentive Compensation" beginning on page 8. Awards under this plan are paid in cash.

Stock option awards granted in fiscal 2009 were granted under our 2006 Omnibus Long-Term Incentive Plan. The 2006 plan provides that the option price of each option shall be at least the fair market value on the grant date of a share of our common stock; provided, however, that if the grantee is a 10% stockholder, the option price of an option granted to such person will be at least 110% of the fair market value on the grant date. Under the plan, the fair market value of a share of common stock is generally the closing price of our common stock on the grant date.

The option awards reflected in the "Grants of Plan-Based Awards for Fiscal 2009" table under "2009 Option Grant" are qualified and non-qualified stock options to purchase shares of our common stock which were approved by the Compensation Committee and granted to the named executive officers as a part of our 2009 annual grant of long-term incentive awards. Mr. Angrick's options vest over a four-year period, with 25% vesting on October 1, 2009, and the remainder vesting in equal monthly increments over the following 36 months. Option awards granted to other named executive officers in fiscal 2009 vest over a five-year period, with 25% vesting on October 1, 2009, and the remainder vesting in equal monthly increments over the following 48 months. The options may vest earlier upon a change of control of the Company if the options are not assumed or substituted by the surviving corporation. Unvested options will also vest if the executive is involuntarily terminated by the Company within one year following a change of control. The options generally have a term of ten years, but that term may be shorter in the event of death, disability or termination of service.

The restrictions on restricted stock granted to Mr. Mateus-Tique in fiscal 2009 lapsed on September 30, 2009.

- (1) These stock options were granted under the Liquidity Services, Inc. 2005 Stock Option and Incentive Plan and became vested and exercisable over a four-year period in equal annual installments beginning one year from the date of grant.
- (2) These stock options were granted under the Liquidity Services, Inc. 2006 Omnibus Long-Term Incentive Plan and vest over a four-year period, with 25% vesting on the first anniversary of the grant date and 2.083% per month vesting thereafter for the following 36 months.
- (3) These stock options vested 10% on the completion of our initial public offering in February 2006 and 90% upon the finding by our independent registered public accountants that there were no weaknesses in our internal control procedures upon the completion of their review of our internal control procedures for fiscal 2007.
- (4) These stock options were granted under the Liquidity Services, Inc. 2006 Omnibus Long-Term Incentive Plan and vest over a five-year period, with 20% vesting on the first anniversary of the grant date and 1.67% per month vesting thereafter for the following 48 months.
- (5) The closing price of our common stock on the grant date is the exercise price for stock options, except stock options granted to Messrs. Angrick and Mateus-Tique. The exercise price for Messrs. Angrick's and Mateus-Tique's outstanding stock options is 110% of the closing price of our common stock on the grant date.

Option Exercises and Stock Vested During Fiscal 2009

The following table shows the stock options that were exercised, and the restricted stock whose restrictions lapsed, during fiscal 2009 for each of our named executive officers. The values shown below are before payment of any applicable withholding tax and/or broker commissions.

<u>Name</u>	<u>Option Awards</u>		<u>Stock Awards</u>	
	<u>Number of Shares Acquired on Exercise (#)</u>	<u>Value Realized upon Exercise (\$)(1)</u>	<u>Number of Shares Acquired on Vesting (#)</u>	<u>Value Realized on Vesting (\$)(2)</u>

- (1) The value realized on exercise is calculated as the difference between (A) either (i) the actual sales price of the shares underlying the options exercised if the shares were immediately sold or (ii) the closing price of the shares underlying options exercised if the shares were held and (B) the applicable exercise price of the options.
- (2) The value realized on vesting is calculated by multiplying (A) the closing price of a common share on the vesting date and (B) the number of shares acquired on vesting before withholding taxes.

*Potential Payments upon Termination of Employment and Change of Control**Payments upon Termination of Employment*

We have entered into employment agreements with each of our named executive officers that provide compensation upon certain triggering events that result in termination of employment. These agreements are described beginning on page 17 of this Amendment. The table below quantifies the compensation that would have become payable under existing plans and arrangements if each named executive officer's employment had terminated on September 30, 2009 upon certain triggering events. Mr. Mateus-Tique resigned from his employment with the Company effective September 30, 2009, but continued his service as a non-employee director effective October 1, 2009. The table below shows the severance amounts that were payable to him upon his resignation. As the table illustrates, he received no severance upon his resignation of employment. His outstanding unvested options did not terminate upon his resignation as an employee but continue to vest in accordance with their terms based on his service as a non-employee director. For all other named executive officers, the amounts are estimates only, as the actual obligation can only be determined at the time of a named executive officer's separation from our Company. The amounts described below are in addition to benefits that are generally available to our employees such as distributions under our 401(k) plan, life insurance, disability benefits and accrued vacation.

Unvested stock options granted under the Liquidity Services, Inc. 2006 Omnibus Long-Term Incentive Plan do not accelerate upon death, disability or retirement. Unvested options also do not accelerate upon termination of employment by the Company with or without cause or by the executive for "good reason" unless such termination occurs within one year following a "corporate transaction" as further described below. All values were computed as of September 30, 2009 based on the closing price of our common stock on the last trading day of the fiscal year (\$10.32).

- (1) Upon termination of employment as a result of death, the named executive officer is entitled to continued salary through the next full month following the date of termination. The amount shown in this column is the maximum payment that will be paid and represents two months' base salary.
- (2) Upon termination of employment as a result of disability, the named executive officer is entitled to continued salary through the third full month following the date of termination. The amount shown in this column is the maximum payment that will be paid and represents four months' base salary. This amount may be reduced by the amount of any disability benefit payments from insurance provided by the Company.
- (3) Upon termination of employment as a result of death, the named executive officer is entitled to continued salary through the month in which the date of termination occurs. The amount shown in this column is the maximum payment that will be paid and represents one month's base salary.
- (4) Mr. Burton is entitled to these benefits only if his employment is terminated by the Company without cause.

Change of Control Arrangements

Employment Agreements. We do not provide additional change of control benefits to our named executive officers under their respective employment agreements.

Stock Options. Our named executive officers hold unvested stock options under the Liquidity Services, Inc. 2006 Omnibus Long-Term Incentive Plan. This plan contains provisions regarding the treatment of any unvested stock options in connection with a change of control of the Company.

Under the Liquidity Services, Inc. 2006 Omnibus Long-Term Incentive Plan, in the event of a "corporate transaction" either (1) all of the options will vest in full and become exercisable for fifteen days prior to the scheduled consummation of the change of control, or (2) the Board may elect, in its sole discretion, to cancel any outstanding awards of options and pay to the holder an amount in cash or securities equal to the number of options multiplied by the amount the fixed price paid to stockholders exceeds the option price. Under the plan, a "corporate transaction" generally means (1) the dissolution or liquidation of the Company or a merger, consolidation, or reorganization of the Company with one or more other entities in which the Company is not the surviving entity, (2) the sale of substantially all of the assets of the Company or (3) any transaction which results in any person or entity (other than persons who are stockholders or affiliates of the Company at the time the plan was approved by the Company's stockholders) owning 50% or more of the combined voting power of all of the classes of stock of the Company. If the options are assumed or continued by the surviving company, or the surviving company substitutes the options with a substantially equivalent option, then no such acceleration of vesting or cancellation of options shall occur.

Unvested options will also vest if the named executive officer's service with the Company is involuntarily terminated within one year following a "corporate transaction." For this purpose, an involuntary termination means a termination of service with the Company without cause or a voluntary resignation of the named executive officer following a material adverse change in the executive's title or responsibilities, a material reduction in base salary, or receipt of a notice that the executive's principal workplace will be relocated more than 50 miles.

The table below shows our estimates of the amount of the benefit each of our named executive officers would have received if the unvested options held by them as of September 30, 2009 had become fully vested as a result of a change of control or an involuntary termination within one year following a change in control. The estimated amount of benefit was calculated by multiplying the number of unvested options held by the applicable named executive officer by the difference between the closing price of our common stock on the last trading day of the fiscal year, which was \$10.32, and the exercise price of the option.

<u>Name</u>	<u>Number of Unvested Options at September 30, 2009 (#)</u>	<u>Estimated Benefit \$(1)</u>
William P. Angrick, III	148,752	\$ 167,200
James M. Rallo	180,210	397,600
Jaime Mateus-Tique	58,335	0
Eric C. Dean	250,210	340,800
Thomas B. Burton	168,439	340,800

- (1) For vesting of unvested stock options, the values are based on the number of options that would have vested on the last business day of fiscal 2009, multiplied by the difference

between the closing price of our common stock on the last trading day of the fiscal year (\$10.32) and the exercise price of the unvested option. If the exercise price of any unvested option was greater than the closing price of our common stock on the last trading day of fiscal 2009, no value was attributed to the acceleration of these unvested options.

Compensation of Non-Employee Directors

Our non-employee directors receive a combination of equity and cash compensation for service on our Board of Directors. Directors who are employed by the Company do not receive any compensation for their service as directors. The Compensation Committee, in consultation with Towers Perrin, its independent compensation consultant, periodically reviews non-employee director compensation and recommends changes based on competitive market data. In fiscal 2009, the Compensation Committee recommended an increase to our non-employee director compensation program based on a review of data compiled by Towers Perrin in fiscal 2008 from our "peer group" (described below in the "Compensation Discussion & Analysis") that indicated our director compensation program was below the median of the peer group. On April 28, 2009, the Board of Directors approved the new fiscal 2009 non-employee director compensation program recommended by the Compensation Committee, which became effective on that date.

Prior to the adoption of the new compensation program, each of our non-employee directors received an annual cash retainer of \$25,000. Committee chairs received an additional annual retainer as follows: \$10,000 for the Audit Committee and \$5,000 for each of the Compensation Committee and the Corporate Governance and Nominating Committee. All amounts paid to our non-employee directors are paid quarterly in arrears, unless an election was made otherwise. Our non-employee directors have the opportunity to receive payment of their retainers in the form of stock option grants or grants of restricted stock by making an irrevocable one-time annual election. Stock options received pursuant to this election vest on the last day of the fiscal year with respect to which such stock options were granted. All restrictions applicable to the restricted shares received pursuant to this election also lapse on the last day of the fiscal year with respect to which such restricted shares were granted.

In addition to a cash retainer, prior to the adoption of the new compensation program, each non-employee director was to receive an annual equity award with an aggregate value of \$75,000 granted under the Liquidity Services, Inc. 2006 Omnibus Long-Term Incentive Plan. Sixty percent of the annual equity award was to be provided in the form of stock options with a grant date fair value of \$45,000, and forty percent of the annual equity award was to be provided in the form of restricted stock having a grant date fair value of \$30,000. The determination of the number of stock options to be granted is made using the Black-Scholes model. The number of shares of restricted stock to be granted is determined by dividing the value of the award by the closing price of our common stock on the grant date.

Under the new compensation program, the annual retainer increased from \$25,000 to \$30,000. Annual retainers payable to Committee Chairpersons of the Audit, Compensation and Corporate Governance and Nominating Committees remained unchanged, except that such retainers are to be paid in advance (such retainers were pro-rated in fiscal 2009 through the end of the year). The total target value for the annual equity component of director compensation was increased from \$75,000 to \$90,000 and continues to be awarded in the same mix of stock options and restricted stock. Based on this new compensation program, on April 28, 2009, we granted each of our non-employee directors options to purchase 21,086 shares of our common stock with an exercise price per share of \$8.55 and 3,509 shares of restricted stock. All of these options vest, and all restrictions lapse on these restricted stock awards, on February 18, 2010 and expire ten years from the date of grant. The Board intends to grant future annual equity awards in February coinciding with our annual meeting. Such annual awards are to vest on the one-year anniversary of the grant date.

The non-employee director compensation described above, which became effective April 28, 2009, is summarized in the following table:

<u>Annual Compensation Element for Role</u>	<u>Board Compensation</u>
General Board Service—Cash Retainer	\$30,000
Committee Chair Service	
Audit	\$10,000
Compensation	\$5,000
Corporate Governance and Nominating	\$5,000
General Board Service—Equity	
Stock Option Value (60%)	\$54,000
Restricted Stock Value (40%)	\$36,000
Vesting Schedule	Stock options and restricted stock vest on the one-year anniversary of the grant date

In addition to the compensation described above, our non-employee directors are reimbursed for expenses they incur in attending meetings of the Board of Directors or Board committees.

Director Compensation for Fiscal 2009

The following table sets forth the total cash and equity compensation paid to our non-employee directors for their service on the Board of Directors and committees of the Board of Directors during fiscal 2009.

<u>Name</u>	<u>Retainer fees paid in cash (\$)(1)</u>	<u>Stock Awards (\$)(2)(3)</u>	<u>Option Awards (\$)(2)(4)</u>	<u>Total (\$)</u>
Phillip A. Clough	\$ 24,999	\$ 32,501	\$ 48,750	\$ 106,250

Franklin D. Kramer	35,417	32,501	48,750	116,668

- (1) Retainer fees, at the election of each director, may be payable in cash or in the form of stock options or restricted stock. For fiscal 2009, Mr. Clough elected to receive restricted stock. As a result, Mr. Clough was granted 2,917 shares of restricted stock with a grant date fair value of \$24,999 on November 5, 2008. The restrictions on these shares lapsed on September 30, 2009.
- (2) This column shows the dollar amounts recognized for reporting purposes for fiscal 2009, in accordance with U.S. generally accepted accounting principles, disregarding estimates of forfeitures related to service-based vesting conditions. Amounts shown cover awards granted in fiscal 2009 and in prior years which continued to be expensed in fiscal 2009. For additional information about the assumptions used in these calculations, see Note 2 to the audited consolidated financial statements of the Company included in our Annual Report on Form 10-K for the fiscal year ended September 30, 2009. As described above, in fiscal 2009, each non-employee director was granted an option to purchase 21,086 shares of our common stock which had a grant date fair value of \$54,000. Each non-employee director also was granted 3,509 shares of restricted stock with a grant date fair value of \$36,000. We calculate the grant date fair value of a restricted stock award by multiplying the closing price of our common shares on the grant date by the number of shares subject to such award.

- (3) At September 30, 2009, each of our non-employee directors had 3,509 shares of restricted stock outstanding.
- (4) At September 30, 2009, each of our non-employee directors had the following stock option awards outstanding, some of which were not fully vested: Phillip A. Clough, 74,121 options; F. David Fowler, 69,318 options; Patrick W. Gross, 77,711 options; and Franklin D. Kramer, 77,711 options.

Compensation Committee Interlocks and Insider Participation

The members of our Compensation Committee in fiscal 2009 were Messrs. Gross, Clough and Kramer. No member of the Compensation Committee has been an officer or employee of Liquidity Services or any of our subsidiaries at any time. None of our executive officers serves as a member of the board of directors or compensation committee of any other company that has one or more executive officers serving as a member of our Board or our Compensation Committee.

Compensation Committee Report

The Compensation Committee of our Board of Directors has reviewed and discussed the Compensation Discussion and Analysis contained within this Amendment with management and, based on such review and discussions, our Compensation Committee recommended to our Board of Directors that the Compensation Discussion and Analysis be included in this Amendment, to be incorporated into our Annual Report on Form 10-K for the fiscal year ended September 30, 2009, and in our proxy statement.

Compensation Committee:

Patrick W. Gross, Chair
 Phillip A. Clough

Item 13. Certain Relationships and Related Transactions, and Director Independence.

Certain Relationships and Related Party Transactions

The Company did not participate in or review any potential related party transactions during fiscal 2009. To be considered a related party transaction under current SEC rules, a transaction must include the Company as a participant, and one of our officers, directors or greater than 5% stockholders must have a direct or indirect material interest in the transaction. To date, we have not participated in any related party transactions requiring disclosure as such under the SEC disclosure requirements. Should we consider participating in a related party transaction in the future, such transaction would be reviewed and subject to approval by the Audit Committee, in accordance with our written Audit Committee Charter. We have not adopted specific standards that would govern such review.

As a general matter, our written Code of Business Conduct and Ethics prohibits conflicts of interest. We consider a conflict of interest to exist when a person's private interest interferes in any way with the interests of our Company, including: (i) a conflict that makes it difficult for an employee, officer or director to perform his or her work objectively and effectively; (ii) when an employee, officer or director, or any member of his or her family, receives improper personal benefits as a result of his or her position in or with our Company; or (iii) when an employee, officer or director is engaged in a business or business activity that is in competition with or injurious to us. The Code of Business Conduct and Ethics requires that the General Counsel be consulted with any questions about conflicts of interest in addition to requiring that our directors and officers consult with the General Counsel before engaging in any potential conflict of interest transactions.

Director Independence

Pursuant to the NASDAQ Stock Market, Inc. listing standards, the Board of Directors has adopted a set of categorical standards to assist it in assessing the independence of directors. Under these standards, an independent director is a person that the Board of Directors determines to be free of any relationship with Liquidity Services and to meet the then-current requirements for "Director Independence" of the SEC and the NASDAQ Stock Market, Inc. The listing standards specify the criteria by which independence will be determined, including guidelines for directors and their immediate family members with respect to employment or past employment with Liquidity Services, receipt of compensation from Liquidity Services, relationships with Liquidity Services' internal or external auditor, employment with a company if an executive officer of Liquidity Services serves on that company's Compensation Committee, employment with a company that has made payments to or received payments from Liquidity Services in excess of certain amounts, or service as an executive officer of a non-profit organization to which Liquidity Services has made contributions in excess of certain amounts.

Based on the standards set forth in our Principles of Corporate Governance and outlined above, the Board of Directors has determined that Messrs. Clough, Fowler, Gross, Kramer and Perdue are independent under these standards.

Item 14. Principal Accountant Fees and Services.

Audit and Non-Audit Fees

The following table presents fees for professional audit services rendered by Ernst & Young LLP for the audit of the Company's annual financial statements for the fiscal years ended September 30,

2009, and September 30, 2008, and for fees billed for other services rendered by Ernst & Young LLP during those periods.

	<u>Fiscal 2009</u>	<u>Fiscal 2008</u>
Audit fees(1)	\$ 929,800	\$ 964,300
Audit-related fees(2)	\$ 83,500	\$ 75,600
Tax fees(3)	\$ 106,075	\$ 154,240
Subtotal	\$ 1,119,375	\$ 1,194,140
All other fees	N/A	N/A
Total fees	\$ 1,119,375	\$ 1,194,140

- (1) Audit fees consisted principally of work performed in connection with the audit of our consolidated financial statements and the review of the unaudited quarterly financial statements. This amount includes \$62,000 and \$68,300 in costs during fiscal 2009 and fiscal 2008, respectively, related to the statutory audits of our subsidiaries Liquidity Services, Ltd. and Liquidity Services, GMBH and other related services.
- (2) Audit-related fees consisted principally of fees incurred in connection with our employee benefit plans.
- (3) Tax fees consisted principally of tax return preparation, planning and compliance work.

Policy on Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services of Independent Registered Public Accounting Firm

Pursuant to its Charter, Audit Committee policy and applicable law, the Audit Committee pre-approves all audit and permissible non-audit services to be provided by our independent registered public accounting firm. The pre-approval policy applies to audit services, audit-related services, tax services and other services. The Audit Committee has delegated authority to the Chair of the Audit Committee in some cases to pre-approve the provision of services by our independent registered public accounting firm, which pre-approvals the Chair then communicates to the full Audit Committee. To avoid potential conflicts of interest, the law prohibits a publicly traded company from obtaining certain non-audit services from its independent registered public accounting firm. We obtain these services from other service providers as needed.
